Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective June 17, 2001 and Commission Rule 133.305 titled Medical Dispute Resolution - General and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent. The dispute was received on 7-6-04.

The Medical Review Division has reviewed the enclosed IRO decision and determined that **the requestor did not prevail** on the issues of medical necessity. The IRO agrees with the previous determination that the CT Scan of the Pelvis on 7-28-03 was not medically necessary.

Based on review of the disputed issues within the request, the Medical Review Division has determined that medical necessity fees were the only fees involved in the medical dispute to be resolved. As the services listed above were not found to be medically necessary, reimbursement for dates of service 7-28-03 is denied and the Medical Review Division declines to issue an Order in this dispute.

This Decision is hereby issued this 25th day of August 2004.
